## THERMOSTATS

The Virtual Keypad app provides full remote control over temperature and fan settings. With the capabilities to automate your temperature control, you can save on utilty costs and save more energy.
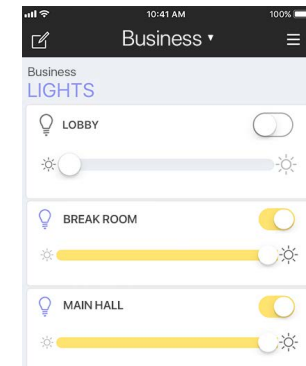

DOOR LOCKS AND ACCESS CONTROL

Unlock or lock your door with the tap of a button. With the capabilities to schedule your devices, you can automatically have your doors unlocked in the morning and have them locked again at closing time.
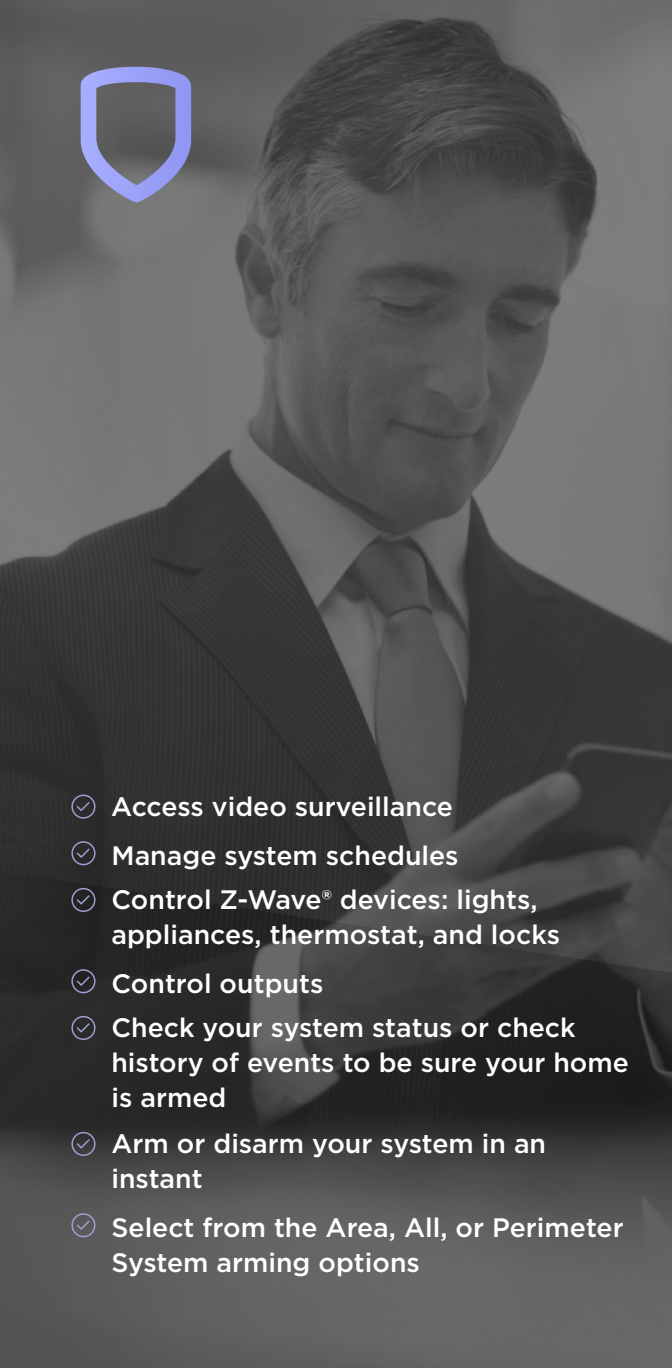

Your alarm system can do more than just keep your office secure. You can turn your lights on and off, set your thermostat, lock your doors, view cameras and receive notifications, all from the Virtual Keypad™ app.
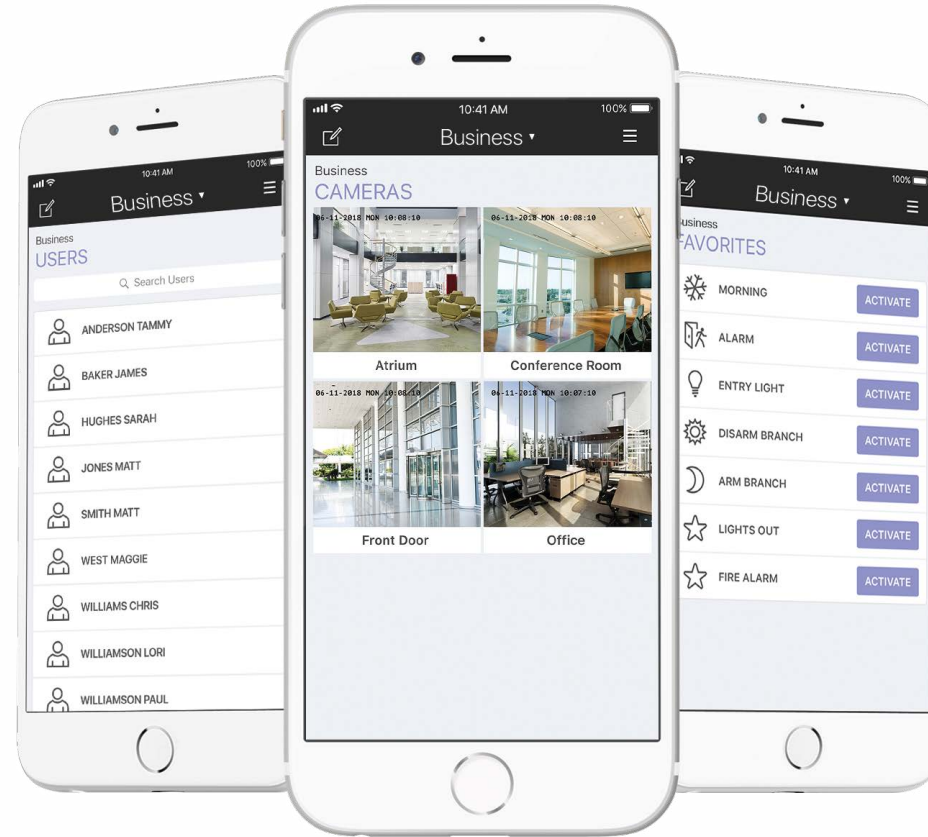

LIGHTS

Easily turn lights on, off or dim them as needed from the Lights menu.

- ✓ Access video surveillance
- ✓ Manage system schedules
- ✓ Control Z-Wave® devices: lights, appliances, thermostat, and locks
- ✓ Control outputs
- ✓ Check your system status or check history of events to be sure your home is armed
- ✓ Arm or disarm your system in an instant
- ✓ Select from the Area, All, or Perimeter System arming options

USERS
Add, remove or edit users from your system.

CAMERAS
Select up to 16 Wi-Fi or IP video cameras and remotely view live video, recorded clips and have video verification upon alarm.

FAVORITES
Save your most-used devices into a group so you can turn them on or off with one tap.

Managing your office and employees' security is good business.
—

Choose your level of protection
With options to arm All, Perimeter, or Area, you can have the peace of mind that your investments are well protected.

Set alerts you want to receive
Choose to receive notifications in cases of Alarms, Troubles and Arms/Disarms, or get a notification if someone enters a restricted area.

Manage system schedules
Schedule Arming/Disarming, your Favorites, Doors, Z-Wave devices and other outputs.

Control multiple devices with one tap
With the Favorites settings you can group your most-used devices and turn them on or off with a single tap.

Multiple system control
Manage multiple locations seamlessly from the same app.
